rold at 114%, and Northern Indiana at 113—all that was in the market of cities being taken. The Coal Stocks continue to improve. Pennsylvania sold at 115; Dauphin, 69; Delaware, 127, &c.

At the close, the market was very stiff.

The Exchange market for the steamer is

ull, but rates are firm at 10% @10% for leading Sterling. France are 5 164 @ 5.15; Hamburg, 364 @ 364; Bremen, 79@79%; Amsterdam, 40% @41; Continental Bills are In Freights there is not much doing, and

rates are without further change. To Liverpool, 3,000 bble. Flour, 12d.; 12,000 or 15,000 bush. Grain, 4d. @414d.; Doie, Flour, 12d.; 12,000 or 13,000 outst. Oratn, 4d. @41 (d., Cotten, 5.32d. and dull; 500 bbls. Resin, 12d. To London, 1,000 bbls. Flour, 1/9. A Deal charter was made m Be to London at the West India freights at sonaire at 110., the charter to Lisbon at \$15. To California the market is firm, with considerable freight offering. The Sovereign of the Seas has 60,000 feet already engaged at 80 #90c.

The steamer will probably take something over half a million of coin to-morrow. We hear of \$450,000 being put up and some further amounts eng ged conditionally. If the export does not much exceed half a million it will be much less than was anticipated last week.

In Money there is no change excepting an increased supply. Large balances are lying unemployed in the hands of the leading banking houses. The rates on call are 425 \$\psi\$ cent, with occasionally a lower figure First class short paper, 4@5,\$ cent.

The receipts at the Sub-Treasury are \$110,185; Paid, \$24,175; Balance, \$4,445,696. The Seventh Ward Bank has declared

414 P cent. dividend for the last six menths, payable on

the 15th prox. The demand for Dry Goods has been rather greater during the past week. Toe upward tendency of prices for Cotton and Woolen Goods has Induced many early purchases by the trade for the fall season, and some speculative purchases of Woolen goods. The fact of a rising market, therefore, has provented the usual duliness generally appertaining to this month. The South-western dealers are also in market. The later trade demand for Summer Goods has found dealers, jobbers and clothiers unprepared with full stocks and these consequently have been compelled to make up their assortments at enhanced rates. The fail trade will commence at higher prices This is now an ascer tained fact; and early buyers will secure an advantage, as prices will tend upward during the whole season, Stocks have been considerably reduced, which is the secret of the advanced rates, while the advanced prices of the raw materials prevent replacement of stock, except at a rise on goods. This has been especially the case with Cloths. Production has been limited, and we are likely to be short of Domestic Cloths, to be made up, doubtless, by an extra importation of German Cloths, which have so large a sale here. Brown Sheetings and Shirtings are active, with a supply below the demand. Sales to arrive of heavy Sheetings are making at 71/1c. Prices have an upward direction. Bleached Goods are also less abundant, and holders are much firmer, and will raise their prices very shortly. Fine goods are becoming scarce. Medium and lov qualities are more freely supplied, but at strengthening rates. Brown Drils are active for shipping at 7120 75ke. Blues are scarce at 9c. Bleached plenty, but brisk of sale at Sc. Osnaburghs are light in stock and prices are rising. Denims are firm at 74 274c. Stripes and Ticks are moderately active-Ticks, 8 at 914c. Printing Cloths have further advanced, with a fair demand but light supply. The range of prices is from 3% # 47 ac. Prints are more active for the Southwestern market, principally of fall styles. Ginghams sympathize in the upward movement in goods. Holders are now asking 11c., which is an advance of 4cc. De Laines are at present inactive. Cloths are reducto very low stocks in first hands, and the speculative disposition continues. Whatever goods can be picked up at old prices are sold at once; but few, however, are left. Colored Cloths are scarce and wanted. Cassi meres are more active. New fancies are arriving in market and excite attention. Satinets are in good request at full rates. Linseys are active and firm at 15 & 17c. Jeans

pert mixture of the lower and newer article with the dearer and older one of cotton or wool. The consumer will share in the benefit a little later in the day. The Pennsylvania Coal Company has declared a dividend of 314 P cent. This dividend, we understand, is out of the earnings of the Company previous to January last, leaving the earnings of this year untouched. The Company have also a surplus of 4 P cent, from the business of 1850-51. The profits of this year are at least 50c. F tun larger than last year, and an advance of 25c, has been recently added. The Company, it would sppear, are in a very prosperous condi-

have advanced Sc., owing to the reduction of stock. Tweeds are without change. Financis are in demand

and firm. Blankets are active for home consumption

and export, at full prices. Blankets also are advancing.

The importations of foreign goods this week have been

larger. The demand for German Cloths is very active and on the increase. Prices of all foreign goods are

rather higher, whether Sdk, Cotton or Woolen. Stocks have been greatly reduced, especially of French

goods. Black and Figured Silks are firm at the advance we have already noted of full 5 P cent., and have been in better demand the last few days, with a prospect of great

mend for heavy Cloths for the clothing trade. Dress

fall goods will be largely imported this season. Linen

goods are coming forward rather in excess and at lower prices. Linear do not share in the advance obtained on

Woolens, Silks and Cottons. When the Claussen im-

provement is fully brought to bear in the manufactures

of the country, we expect lower rates. The manufac

turers will be at first able to get large profits by an ex.

British goods are firm in prices, with a fair de

activity.

The Controller of the City of Buffalo is In town, and will be in attendance at the banking house of Mesers. Duncan, Sherman & Co., to-morrow, to open bids for the \$150,000 Buffalo City 7 4r cent, Bonds, ad

vertised for that day. To-morrow (Wednesday, 30th) at 3 o'clock P. M., Messrs. Delano, Dunlevy & Co., No. 30 Wall st., will open the bids for \$200,000 of the Eight Per Cent. Convertible Mortgage Bonds of the Milwaukee and Mississippi Railroad Company. The interest is payable in January and July at the office of Messrs. Duncan, Sherman & Co. The convertible feature of these bonds is very valuable, as in every case, we think without exception, the stocks of Western Roads, when completed, have sold from 5 to 20 4 cent. above par. This road occupies a route where the same result is likely to follow. As we stated a few days since, this road is one of the most important and needed public works in Wisconsin, and is to that State what the Erie Road is to New-York. It runs through the richest portion of the State, and will do an immease local business in addition to the through traffic between Lake Michigan and the Mississippi. Already, while running into the prairie, without an important Western terminus, and with plank road competition directly at its side, it is earning more than enough to pay expenses and the interest on its cost. The stock subscriptions are about a million of dollars. The mana gers of this enterprise are among the leading men of the State, and most of them are well known here as men of high character.

These bonds are a part of an issue of \$600,000, se cured by mortgage on the road from Milwaukee to Rock River, in Wisconsin, a distance of seventy miles, and covers dépôt grounds, dépôts, car and machine shop, and the road equipments. They are issued to meet the expenses incurred and to be incurred in the construction and equipment of the road. Thirty-six and onehalf miles are completed and new opened, and the whole is under contract to be completed by 1st of Nowhose is under contract to be completed by 1st of November next. This teen and one-half miles more, from Eagle to Whitewater, will be opened by the 1st of August next, and twelve miles more, from Whitewater to Milton, in September. The Iron and ties are purchased for the whole distance, and a considerable portion of the grading done. The estimated cost of the road to Rock River is \$1,250,000, about \$800,000 of which have already been expended in its construction and equipment. The 3612 miles now opened is earning \$200 a day. The receipts for August, when the road will be opened to Whitewater, are estimated at \$12,000. These Bonds are, under the late Bank law of Wisconsin, receivable as a basis for Bank circulation, and have already been purchased to considerable amount for that

purpose. We believe they are the only bonds in exist-

e which meet the requirements of that law. The semi-annual interest on the Bonds of the Rock River Valley Union Railroad Company of Wisconsin, due July 1, 1852, will be paid at the Compa-

ny's Office, No. 16 Exchange-place. The receipts of gold dust during the month have been larger than was reported, as the Mint has already received on deposit \$4,770,000, which, with \$2,100,000 received by the Crescent City, will make nearly seven millions for the month. This is more than double the amount exported. The Journal of Commerce has a table of Mint statistics for a number of years past, from which it appears that the deposits of California gold at our Mints, for coinage, since its first discovery up to the let of June, amount in round numbers to \$118, 600,000. To this add \$7,000,000 for June, and the amount thus in hand is \$125,600,000. It is probably safe to estimate the total production of the California mines to date, at nearly \$200,000,000. The exports of gold from New York to foreign ports, since the lat of January last, are \$12,000,000, and from other ports about \$2,000,000. The imports from abroad, regularly entered at the Custom-House, are about \$1,500,000. In addition to this, a large sum in foreign coin is brought each month in the hands of lumnigrants. The total exports of coin from the country since the first receipts of gold from California, over and above the imports, still leave an increase of gold coin in this country of between forty and fity millions of dollars, part of which has been added to the amounts on deposit in the banks, and the remainder is in circulation. to estimate the total production of the California mines

The comparative receipts of gold at all the Mints have 

The coinage at all the Mints since their organization to May 31, 1852, has been \$281,878,874. The aggregate deposits of domestic gold during the same period have been \$134,774,663,

The Money markets at Boston and Philadelphia continue very easy.

The Boston and Providence Road has declared a dividend of 3 to cent.

The Genesce Valley Railroad seems to be in a fair way of going on to completion without trouble. The Livingston Republican states that at a meeting of the Directors last week, the Committee previously appointed to examine the route on the west side of the river up to Fowlerville, reported favorably, and a survey was directed to be made previous to the locating. The \$300,000 authorized to be subscribed by the city, at a recent meeting of the Common Council was

The Treasurer of the Chesapeake and Ohio Canal Company has given notice that, in consequence of the disastrous flood of April last requiring heavy expenditures for the repair of the canal and causing the loss of revenue for two or three months, the payment of the interest due on the 1st of July on the coupen bonds issued under the Maryland act of 1844, will be suspended. At the special meeting of the Boston and

Providence Railroad, held at Boston on Saturday, the vote passed at the late annual meeting, rejecting the re. port in regard to rendering aid to the Providence and Bristol road, was reconsidered, and the whole matter left to the discretion of the Directors.

The exports from the port of Baltimore have been small for the week ending on Thursday last, the total value being \$60,100 25. The export of Breadstuffs for the week comprises 7,986 barrels of Flour, 1,389 barrels of Corn Meal, and 7,664 bushels of Corn.

Gordon L. Ford, Esq., has been elected President of the New-London, Williamontic and Palmer Railroad, in place of Hon. Thomas W. Williams, who has resigned in consequence of the desire to make a somewhat prolonged visit to Europe with his family.

The Nashville and Chattanooga Railroad intend celebrating the opening of the tunnel on that important road on the 3d proximo. The President, in a communication to the Mayor of Nashville, remarks:

"There are now five hundred hands at work. "There are now live furnared names at work. Work will be within five miles of the Tennessee River in nine-ty days at farthest, and we will finish this side of the river this November, and the grading beyond the river this year. We will close up at the bridge early next year, and make an end of this passage through the mountains, and open the Valley of the Mississippi fully to your enterprising merchants."

cotton—Only 300 bales changed hands to day, at the decline we noticed yesterday. The market for this staple is very unsteady.

FLOUR AND MEAL—Holders of fresh-ground flour are firm. The demand is good for export, with very little, if any, to be had at our inside figures. Our figures apply to fresh-ground, with the exception of Wisconsin, which is plenty, and selling at regular prices. The better grades are abundant and are dull; the inferior grades are in better demand and prices are steady. The non-arrival of the "tow" restricted the sales for shipping. Canadian is heavy and plenty; the demand is fair; sales of 3,000 obla at \$10.24 for for common to good brands in bond. The sales of domestic are 9,000 bbls., at \$3.25.853 14 for sour; \$3.71.824 for State; \$4.034 25 for mixed to fancy Michigan and Indiana; \$4.634 12] for common to good Orlin; \$4.034 50 for fine; \$3.75.283 37½ for Wisconsin; \$3.94.844 for State; \$4.034 25 for mixed to fancy Michigan and Indiana; \$4.634 12] for common to good Orlin; \$4.05.854 12½ for farey often \$5.12½ for extra Orline; and \$5.00.871 for extra Genese; Southern is firm for regular brands; the arrivals are moderate, and holders are not disposed to sell freely. There is more shipping inquiry. Sales of 1,20 bbls., at \$4.371.854 561 for mixed to rood straight brands, and \$4.75.085 31½ for fancy. Rye Flour is better; the supply is light. Sales of 100 bbls. at \$3.25. Corn Meal is plenty and 4.11, at \$1.263 66 for Onto and State, \$8.12; for Jersey, and \$5.50 for Brandwine.

TORAGCO is dull and rather heavy. Our market is quite a contract to that of New-Orleans at this time. We learn of sales here of 80 hids. Kentucky new crop at 7284c. The receipts at New-Orleans are 20,000 hids. less than last year, though the Western crop is not less full, 20,000 hids. having been sent direct to New-York by the Railroad instead of to New-Orleans.

been sent direct to New-York by the Railroad Instead of to New-Chisms.

SUGARS—The market has been inactive till fo-day, when 800 hids. Cuba Muscovado changed hands on speculation, at private terms. Previously, some sales were effected as 60 hows: 400 hids Cuba Muscovado, 42 25 45; 100 hids. Porto. Bloo, 51 25 6; 1,000 hoxes Brown Havanas, 527 jc. White, which are scarce and wanted, at 73 27 jc. HIDES are dull. The stock is light, only 30,000, of which 2,000 are Buenos Ayres, lield by speculators at 175c., which is above the market. The trade will only give 105c, but there is a speculative demand at 17c. Considerable arrivals are expected from England and the European Continont. Sales of the former, to crive, are making at 7c, and 500 English Slaughter sold here at 7c. between dealers. 235 Texas sold at 105 c. osch.

English Slaughter sold here at 7c between desire. 257 Texas sold at 10½ c. eshough the receipts are increasing. LEATHER is dull, though the receipts are increasing. The demand has greatly fallen off this week. MOLASSES—The market is dull but steady. 120 libds. Muscovado seld at 24c, 100 Clayed Cubas at 19c, and 130 Porto Rico at 28 22 25c.

PHILADELPHIA MARKET — Tuesday, June 29.—Trade generally continues very quiet, and there is no change to notice in the COTTON market. Bark is not so much inquired after, and no further sales have been reported. The FLOUR market continues very duil. There is but little inquiry for shipment, and only 500 bils, good brands have been disposed of at \$4.25, including 200 bils, mixed Western at \$4.45 bil. The sales for city consumption are similated at \$4.125 at \$4.25 in common and read brands; \$4.377.63.75 for choire lots and extra, and faincy brands at \$5.25.75, Ryr Flours is scarce, and held firmly at \$1.50. The stock of cour matter. We quote \$3.123 at \$4.35.15.
